PROFESSIONAL SUMMARY

Driven 7th-semester B.Tech Computer Science student with practical experience building data-driven systems, machine learning models, and scalable backend REST APIs. Proficient in Python, SQL, Pandas, Scikit-learn, and FastAPI with strong knowledge of data structures, algorithms, and containerization with Docker.

EDUCATION

B.Tech in Computer Science and Engineering | Apex Institute of Technology (2021 - 2025)

CGPA: 8.8 / 10.0 | Relevant Coursework: Data Structures, Machine Learning, Database Management Systems, Operating Systems

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript

Data Science & AI/ML: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Machine Learning, Deep Learning, Statistics

Web & Backend: FastAPI, Flask, REST API, HTML, CSS

Databases & Tools: PostgreSQL, MySQL, SQLite, Docker, Git, GitHub, Linux, Postman

WORK EXPERIENCE

Machine Learning Intern | DataTech Analytics Labs (June 2024 - August 2024)

- Developed predictive customer retention models using Python and Scikit-learn, boosting prediction accuracy by 18%.
- Performed extensive exploratory data analysis and data cleaning on 120,000+ tabular records using Pandas and NumPy.
- Automated SQL data extraction queries from PostgreSQL database, reducing weekly report preparation time by 35%.
- Containerized analytical pipelines using Docker and tracked versions via Git and GitHub.

TECHNICAL PROJECTS

AI Resume Analyzer and Job Matching Platform (Python, FastAPI, Scikit-learn, React)

- Implemented automated ATS compatibility scoring engine using TF-IDF vectorization and Cosine Similarity.
- Designed rule-based phrase matching algorithm to extract technical skills across 7 major software domains.
- Built asynchronous REST API microservices in FastAPI with JWT authentication and SQLAlchemy ORM.

Automated Stock Market Forecasting Dashboard (Python, Pandas, Streamlit, Scikit-learn)

- Built time-series forecasting regression models evaluating historical price trends with 85% directional accuracy.
- Designed interactive visual charts with Matplotlib and Seaborn for multi-asset portfolio comparisons.

CERTIFICATIONS & ACHIEVEMENTS

- Deep Learning Specialization** - Coursera / DeepLearning.AI
- Python for Data Science and Machine Learning** - Udemy
- Ranked in Top 5% out of 4,000+ participants in National College Coding Hackathon 2024.
